

KS4 Home Learning

In KS 4 Subject teachers set learners tasks to complete at home to:

- develop individual study skills
- encourage the motivation to learn
- prepare learners for examinations
- reinforce learning in class

In KS4 learners should spend up to 60 minutes on each subject.
It is important to organise home learning carefully and complete activities on time.

Learners are expected to complete learning activities to the best of their ability.

All learners have a planner to record details of their home learning activities. We ask parents and carers to take a regular interest in home learning and sign the planners every week, this will strengthen the partnership between home and school.

We trust that all parents and carers will support their children by ensuring that they have a suitable place to study and encouraging them to take a pride in their learning.

If a learner loses or defaces his/her planner a paper booklet replacement must be purchased (£3.00).

Please do not hesitate to contact the School if you have any questions or concerns about home learning arrangements.

Learners can attend the Learning resource centre at break time, lunch time or after school to complete home learning tasks and get support from the Pastoral team.
